

## Internal Training course partner BLTC

26 – 27.05.2008

Project meeting

28 May 2008

The Austrian partners LK-Stmk and WVB-Stmk are going to organize in Styria a two-days training course addressed to all other project partners: AIEL, SFI, POLBIOM, ARSIA and GAL. Each partner will participate to the course with one or more experts for creating the technical staff.

The aim of the course is a transnational transfer of know-how and sharing experiences on how to set up properly a regional BLTC. The Austrian partners have already created the BLTC: *Biomassehof Waldstein and Biomassehof Pölstal* facing all: technical, economical and legal issues connected with the realization of a physical platform for processing and trading wood fuels. During the course will be define all the steps that each project partners will follow for carrying out properly its regional BLTC.
