## Technical Workshop Hartberg

### Topics of the event:

1. Presentation of BTLC project
2. Subsidies and national support schemes
3. Feasibility study

### Short summary: (goals, methods, description of the programme)

The preliminary WS was addressed to private and public market actors: forest owners/holders, forest entrepreneurs, forestry-owning sawmills, farmers, local municipalities and mountain communities. Based on the results of the preliminary WS we organised within the pilot region a one-day training courses addressed to market actors preliminary selected with task 3.1. The number of participants expected for each course was 20. The main teaching basis was the Woodfuels handbook and SRC booklet prepared in WP 2, which was delivered to all participants. Further Mr. Schnedl from the WV GmbH presented a brand new calculation tool on excel basis to simplify cost statements and feasibility studies in order to realise a BLTC. Based on this experience we organised a technical workshop in Hartberg with about 42 participants from the region. The farmers and forest owners are highly motivated to invest in the BLTC Hartbergerland. The main goal of the workshop was to give an overview about legal, technical and trading issues. 6 experts from Styria gave lectures and discussed with the participants. 3 experts were from company deeply involved in the Austrian Bioenergy market.

### **Programme:**

Welcome and Introduction / Presentation of current BLTC's / Biomassehof Hartberg, production of biomass, products, logistik, calculation / Energy contents, heating systems, other energy sources, boilers, chippers / Quality management, storage, drying, production, moisture content  
Potential customers in the region – trading strategies / Study tour to Pölstal and Waldstein

**Methode:** Power Point Presentation, Excel file programme study tour and active discussion

Annexes (as pdf)

- Leaflets (invite)
- List of participants (or pictures showing the event within the text)
- Lectures presented (if any)

Die Bezirkskammer für Land- und Forstwirtschaft Hartberg, sowie der Waldverband Hartberg – Fürstenfeld und der Maschinenring Hartbergerland bestätigen, dass Herr

**Helmut Wels**

den Ausbildungsworkshop

„Qualifizierter Energieholzlieferant“

im Ausmaß von 2 Halbtagen besucht hat. Durch die Teilnahme an diesem Workshop hat der Biomassehof Hartbergerland einen fachkompetenten Partner für die Lieferung von Energieholz aus heimischen Wäldern gefunden.
