Programme

11.00 - Participants registration

- Presentation of results and discussion among the partners

13.00 – Conclusion

Summary

The initiative has been realized by (Local Action Group) Garfagnana Ambiente e Sviluppo. The technical meeting was finalized to show the results of the feasibility study about the Biomass Logistic and Trade Centre closed to Camporgiano (LU), among involved partners.

The technical meeting has been addressed to help Comunità Montana of Garfagnana to prepare a proposal to implement and manage the BT&LC in Camporgiano for the call for bids made by LAG Garfagnana.

At the meeting were present delegates from the Comunità Montana della Garfagnana, from Municipality of Camporgiano and from LAG Garfagnana. All the economical results and the technical assessment were presented and some financial problems were analysed.

Beside that, LAG Garfagnana took the occasion to present the new catalogue about wood fuels producers, realized within the BTC Project together with other Italian partners, and several copies of the catalogue and of the wood fuels handbook were distributed to the participants.

The initiative was open only to the institutions and to the subjects interested to BL&TC and working in the local area of Garfagnana. According to the registrations 4 people have taken

part to the technical meeting.

1. Comunità Montana of Garfagnana: Sandro Pieroni
2. Municipality of Camporgiano: Alberto Focacci
3. LAG Garfagnana: Stefano Stranieri, Alfredo Parenti

Role: Comunità Montana of Garfagnana as managing institution of the BLTC
Municipality of Camporgiano as owner of the area

Delegates have represented the project and confirmed yours will for the call for bids made by LAG Garfagnana.
